

Create a child account (for users under 13)

As the parent, log in to your account at www.khanacademy.org. Once logged in, click COACH in the top left and go to “Manage students”

Select “Child accounts” on the left.

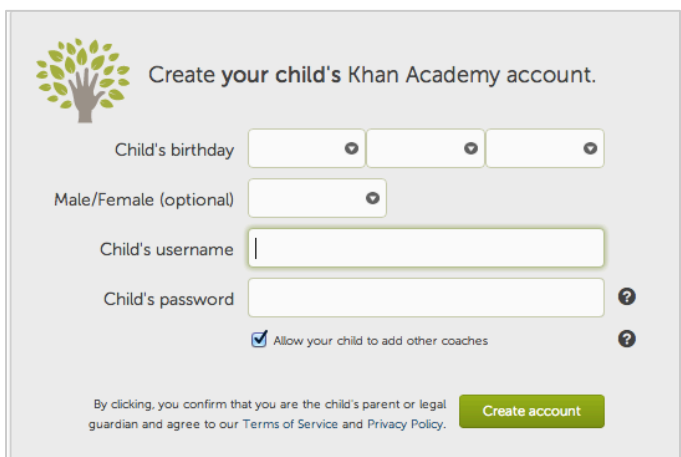

Click “Create child account” (alternatively, visit www.khanacademy.org/createchild)

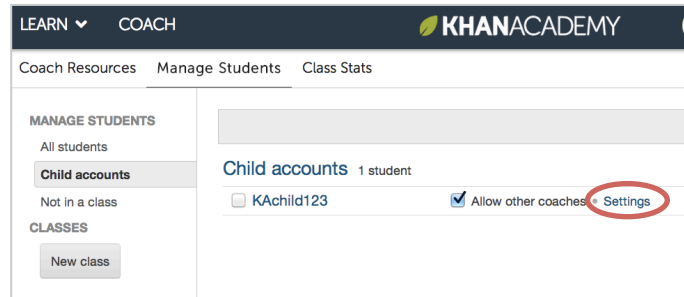

Fill out the requested information, note the Terms of Service and Privacy Policy, and create the account.

Note:

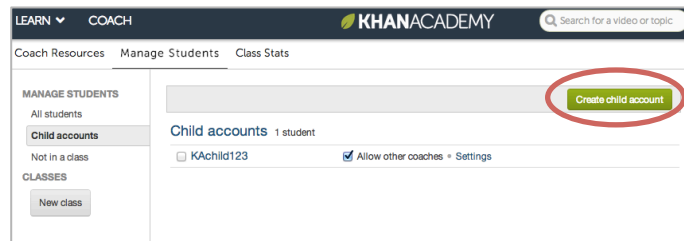

- You are your child’s default coach. Selecting “allow other coaches” enables others to request to be a coach (e.g., your child’s teacher) to also see your child’s activity.
- A child’s password can only be changed by the parent account

A screenshot of the 'Create your child's Khan Academy account' form. The form includes fields for 'Child's birthday', 'Male/Female (optional)', 'Child's username', and 'Child's password'. There is a checkbox for 'Allow your child to add other coaches' and a 'Create account' button at the bottom.

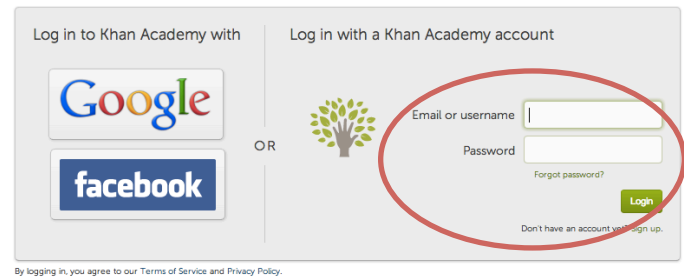

After creating their account, you'll see it in the "Manage students" tab. To change information or delete their account, click on "Settings"

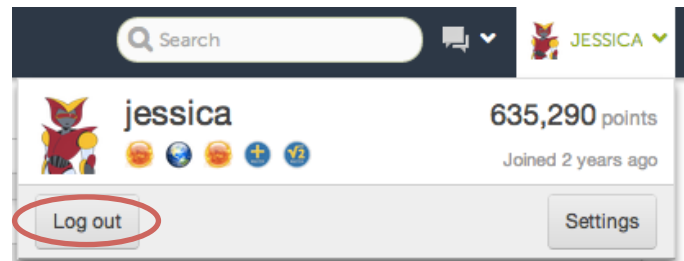

To create another child account, select the "Create child account" button again.

For your child to log in, have them use the username and password you created for them. Make sure to LOG OUT of your account first.

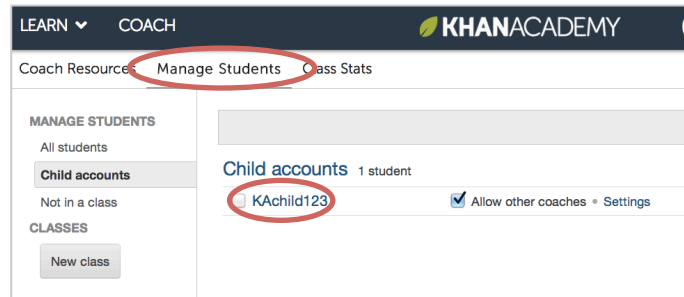

NOTE: To log out of your account, click on your username in the upper right. You should see a small window pop down. Click on "Log out".

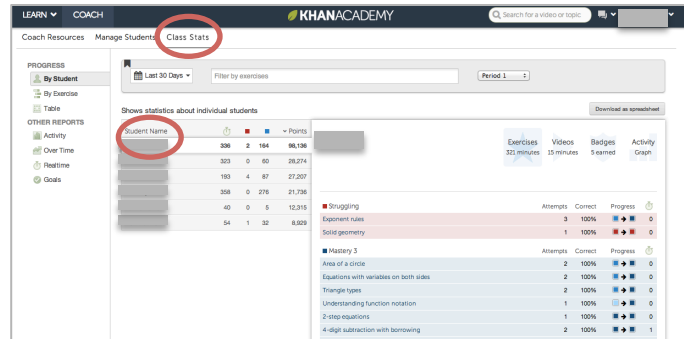

Log into your parents account to see your child's activity:

- Click on their username in “Manage Students” to see their profile

- OR select the “By student” report in Class stats and click on their name.
